SUPPORT THE CABIN FUND

Do you want to do a good deed this Christmas? Then buy few theatre tickets to the movie at the Catlow theatre that

the Scout Labin maintenance committee is sponsoring on Christimas day and the following day.

The net proceeds from the benefit will be used in the fund for maintenance of the Seout Cabin.

Barrington is one of the few communities in this country

possessing a scout cabin. And in that respect is very fortu-nate for the cabin serves as an outstanding means of providing our youth with a recreational center where clean, up-right and meritorious programs that develop character and good citizenship can be held.

The youth of today is the adult of tomorrow. If we wish to preserve the ideals of our American civilization we will

to preserve time daes of our American civilization we will be wise to give our youth the opportunity to learn good filtzenship in a healthy atmosphere. We know the cost of crime amounts to billions of dollars annually, and we also know that every criminal was once a coy or girl who did not receive proper training. In Barring-ion we have many organizations that provide exceptionally on we have many organizations that provide exceptionally me training for young people and the sout cabin is the central meeting place where these groups function.

It is far better for the people of this nation to give support to these youth programs now, rather than to have to ransom our nation from gangsters in the future.

Buy tickets to the movie show being sponsored here, or a direct donation to the Cabin committee. The money be used to furnish light, heat and repairs. The cost s little compared to the gain.

## YOUR FARM COLUMN

Howdy, Farm Friends: Farmers but the effects can usually be excepted to last or at least three to servation, service have found that except planted in curred rows on the contour did better than crops planted in straight rows on illindigation of the contour did during 1935, designing during 1935, designing during 1935, designing during 1935, designing the contour did during 1935, designing the contour did during 1935, designing the contour did the above normal over most of the above

important.

A risk gauge pixed in the terricol and the second of the sec

rea.

Tield increases were even more
oticeable in northern Illinois pronets where the rainfall was below
ormal for the season.
The contoured rows cut across
to line of flow of run-off water

the line of flow of remost water funing rains, alowing down the runned and causing more of the runned and causing more of the ruser to sook into the ground to se used by the crops. Reports indicate no noticeable noreasce in wheat yields in cou-nied rows over straight-rowed side because moisture conditions are generally favorable through-uit Illinois during the wheat grow-ing season.

iments conducted to deter-the true dollar and cents of this materal have shown ton of barnyard manure to a ferrility value of from three half to four dollars. Bad to be either through lack jof mis-gement or knowledge, far-rare sillowing one and one-half

nefits soils in many

tically nif.

The best answer to the manure storage problem is to spread it daily or at least weekly. When this is impractical, a storage shed should be provided.

FLURRIES of snow from a leaden sky; windows bright with candles and holly

wreaths; the street crowded with smiling, happy people whose arms bulge with gaily wrapped bundles. The holiday season brings

all these—but it brings more. It brings the thought of distant friends, and the feeling of good will towards all mankind. To our frie and neighbors we wish all the joys and com-

fort that are contained in those magic words

Merry Christmas
