October 28, 2025

Citizens of the Barrington Public Library District Members of the Board of Trustees

Barrington Public Library District History

While the military campaigns of World War I were being organized, an educational campaign was being launched in the small town of Barrington, Illinois. The campaign started when widow Caroline Ela passed away and left \$1,000 in her will to help form a public library. A committee was formed to let the voters know about the benefits of a tax-supported public library.

Unfortunately, the first referendum held on September 16, 1914, did not pass, but the Barrington Woman's Club decided to establish a library with donated books and a volunteer staff. Space was provided at Cameron's Drug Store and this Library opened in early 1915.

As the book collection grew, the Library made several moves to larger quarters until 1924 when the Barrington Village Board offered space in the Village Hall. During the next year, Barrington residents approved a library tax and a tax-supported library became a reality. The Barrington Woman's Club turned over the Library to the village and the first Library Board was elected in 1926.

The Library remained in the Village Hall until 1957 when a new building was constructed at Monument and Hough Streets in Barrington. In this colonial-style building, designed by architect Ralph Stoetzel, the first full-time librarian was hired in 1963. In the coming years, interest grew in forming a library district, which could serve additional communities. In 1969 and 1970, referenda were passed which made the Village Library a District Library, serving portions of four counties in an area of 72 square miles.

With the expansion of the area and population served, the Library Board began negotiating for a new library site. The Jewel and Kendall Companies in Barrington donated seven acres of land on Northwest Highway for a library in 1972. A bond issue was approved for a new library building at this site in 1975. Designed by the architectural firm of Coder Taylor Associates, the new library building opened its doors in 1978.

Also in 1975, the Library changed its name from the Barrington Public Library to the Barrington Area Library, acknowledging that the Library District serves and receives funding from residents of Barrington and many other surrounding communities over a large geographical area. The library's legal name remains Barrington Public Library District.

In 1989, the architectural firm of Ross Barney & Jankowski was hired to design an addition to the Library. This addition was recognized by the American Institute of Architects Chicago for its Interior Architecture and the "Divine Detail" of its soaring glass and wood atrium. By 1993, the building was expanded to its current 60,000 square foot size.

In 2013-2014, the Library underwent a complete redesign and renovation, in collaboration with the firm of Engberg Anderson. The building was not expanded, but redesigned to make the most efficient use of the space for the public.

In 2019, the Library conducted a space needs assessment in conjunction with Engberg Anderson and Anders Dahlgren and developed a Master Plan. The plan outlined several areas of improvement, addressing current needs and future development.

In 2022-2023, the Library added three new study rooms, created locations for curated collections and for quiet computing, added a Nursing Room, and built a Local History Room. Further, in 2023-2024, the Library built a new MakerLab, and renovated the Administration offices and staff lounge, areas that were unable to be addressed in the 2013-2014 renovation due to cost.

In 2025 the Library developed an Outdoor Landscape Master Plan with Hitchcock Design Group with plans for construction beginning in FY2026.

The indoor and outdoor spaces continue to evolve as community needs require.

Profile of the Library Today

The Barrington Public Library District strives to:

- stimulate imagination,
- develop information fluency,
- foster lifelong learning,
- and create young readers,

all in comfortable physical and virtual settings.

The Barrington Public Library District serves 45,360 residents of all or part of Algonquin, Barrington, Barrington Hills, Deer Park, Fox River Grove, Hoffman Estates, Kildeer, Lake Barrington, Lake Zurich, North Barrington, Palatine, Port Barrington, South Barrington, Tower Lakes, and some unincorporated areas. It covers a 72 square mile area, making it one of the largest library districts in Illinois, geographically speaking.

FY2025 Barrington Public Library District Statistics

- 1,243 programs offered
- 77,031 program attendees
- 273,352 Library visits
- 739 meeting room reservations
- 11,596 study room reservations
- 1,902 one-on-one appointments
- 881,561 items circulated
- 130,009 physical items owned
- 20,540 reference transactions

Awards and Acknowledgements

Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Barrington Public Library District for its annual comprehensive financial report for the fiscal year ended June 30, 2024. This was the first year that the library has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

New MakerLab: The Library's new MakerLab opened in the past year. A larger space with improved visibility and access have led to a tremendous increase in usage. One-on-one MakerLab appointments increased by more than 20%, and projects completed with equipment like the 3D printer and laser cutter have increased anywhere from 5.67% to 16.64%.

Surplus FY2026 Operating Budget:

Approved FY2026 operating budget with revenues of \$11,012,829 and operating expenditures of \$9,399,934 for an operational surplus of **\$612,895**.

Library Organization

Organized and operating under the provisions of the Public Library District Act, the Library is considered to be a primary government and provides a full range of informational and recreational materials and activities. The Library levies property taxes on real property within its boundaries, and is governed by a seven-member Board of Trustees serving staggered, six-year elected terms. The Library does not have any component units nor is it considered to be a component unit of another primary government. The Library Director oversees day-to-day operations including 80 staff members.

The Library participates in the Illinois Municipal Retirement Fund (IMRF); the Library Management and Risk Control Combination (LIMRiCC); Libraries at Risk Agency (LIRA); and Wellness Insurance Network (WIN). These organizations:

- 1. are legally separate organized entities;
- 2. are fiscally independent of the Library; and
- 3. are governed by their own boards.

Audited financial statements for these organizations are not included in this report. However, such statements are available upon request from their respective business offices.

Accounting System and Budgetary Control

The Library converted to the modified-accrual method of accounting in FY2024, whereby revenues are recorded when earned and deferred outflows are recognized; and expenses are recorded when the liability/deferred inflow is incurred. After the end of the year, the Library makes certain adjustments to accounting records to permit the preparation of required financial statements on the accrual basis of accounting to comply with generally accepted accounting principles.

Government Accounting, Auditing, and Financial Reporting defines the "legal level of budgetary control" as "the level at which spending in excess of budgeted amounts would be a violation of law." Illinois Budget Law, 50 ILCS 330/1 et. Seq., as amended, requires all Illinois municipal corporations to adopt a Combined Annual Budget and Appropriation Ordinance specifying the objects and purposes of expenditures; and the Illinois Public Library District Act, 75 ILCS 15/3-1 and 15/4-15, provides procedures for the passage of a Budget and Appropriation Ordinance and a Tax Levy Ordinance. To calculate the appropriation, first the library created a Working Budget with operating revenues of \$11,012,829, and operating expenditures of \$9,399,934, resulting in an operating surplus of \$612,895. In addition, the FY2025 Working Budget included \$2,355,000 for capital improvements to the building and grounds, using reserve funds. The Library District is responsible for ensuring that annual spending does not exceed the Working Budget.

To calculate the appropriation, a multiplication factor is added to the Working Budget which specifies the maximum amount which can be legally expended by the Library in the current fiscal year if sufficient funds are available. The appropriation outlines the object and purposes of expenditures by fund, broken into broad categories [Personnel (salaries, FICA, IMRF, Insurance); Library Materials (materials, electronic materials, programs); Admin & Operating; Facility Operating; Capital Assets; FF&E; Technology; Professional (legal, consultant, and trustee)]. The Library cannot overspend in any of these categories by swapping out between them: each has a distinct limit.

The budget as presented in the FY2025 ACFR is the Working Budget.

Purchasing and Authority to Spend

The District has several policies in place to clearly set financial parameters and guidelines. Among these include investment policy, capital asset policy, fund balance policy, and purchasing policy. All expenditures go through a multi-tier review with efforts to secure reduced pricing on all purchase orders. All invoices are approved by the Board Treasurer after a multi-tier review process. All payments in excess of \$25,000 are reviewed by two trustees prior to issuance. Most payments are processed via EFT, and check fraud is prevented via Payee Positive Pay. All financial transactions are reviewed and approved monthly by the Board of Trustees.

Internal Control

Management has established a system of internal control designed to assure that Library assets are safeguarded against loss, theft, or misuse. The system of internal control also assures that the accounting system compiles reliable financial data for the preparation of financial statements in conformity with generally accepted accounting principles. Internal accounting controls are designed to provide reasonable, not absolute, assurance that these objectives will be met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of the costs and benefits requires estimates and judgments by management.

Factors Affecting Economic Conditions

The Property Tax Extension Limitation Law (PTELL) limits the Library's revenue growth. PTELL limits property tax increases by the Consumer Price Index (CPI) or 5%, whichever is less. For FY2025 revenues, PTELL was limited to 5% despite CPI of 6.5%.

The Library refunds property tax collections for previous tax years due to tax rate objections, Property Tax Appeal Board (PTAB) decisions, and Circuit Court Decisions, a process which is built into the following year's tax distributions. In 2021, PTELL was amended to allow taxing districts to increase the extension in an amount equal to the refunds from assessment reductions granted in the prior 12-month period, beginning with the 2021 levy year. This supplemental "recapture" levy, applied automatically by the county clerk, affected tax revenues beginning FY2023.

In September 2023, the Village of Barrington terminated TIF #1. The Library is currently impacted by the Village of Hoffman Estates Lakewood Center TIF, expiring in 2042, the Village of Hoffman Estates Higgins-Old Sutton TIF, expiring in 2043, and the Village of East Dundee Cook County TIF #7. The Village of Barrington is expected to pass the Liberty and Hough Development Project Area TIF.

Reserve Funds: The Library District's fund balance policy is to maintain a range of no less than three and no more than twelve months of operating expenses for the General Fund. The reserve is maintained for emergency use situations. The FY2025 year-end General Fund reserve is four months. In addition, the Special Reserve funds capital projects. The Special Reserve fund balance is \$4,800,000 for future projects including roof and gutter replacement, window replacement, and furniture replacement.

Public Pension Funding: As of December 31, 2024, the most recent actual valuation date, the IMRF Public Pension was 98% funded, and the Employer Rate has decreased by 50% in the past ten years. Pension obligations as a percent of Personnel expenditures are at 10-year lows.

Responsibility

Library management is responsible for the contents of the Annual Comprehensive Financial Report. We believe that the information, as presented, is accurate in all material respects; that it is presented in a manner designed to fairly set forth the financial position of the District and the results of its operations; and that all disclosures necessary to enable to reader to gain the maximum understanding of the District's financial affairs have been included.

Lauterbach and Amen, LLP (Certified Public Accountants) has issued an unmodified ("clean") opinion on the District's financial statements for the fiscal year ended June 30, 2025.

This letter of transmittal should be read in conjunction with management's discussion and analysis to obtain the most complete assessment of the District's current financial status and its future prospects.

Although addressed to the elected officials and residents of the Library District, this report has a number of other users. Foremost among these other users are potential bondholders of the District, financial institutions, credit rating agencies, educational institutions, and other government entities. Illinois statutes require that Illinois governments publish financial statements, on an annual basis, that are prepared in accordance with generally accepted accounting principles and are audited by independent accountants. In producing an Annual Comprehensive Financial Report, the Barrington Public Library District has chosen to provide financial information that is significantly greater than that which is required under state law.

The success of the Library District results from the contributions of Finance Manager Lauren Rosenthal, not only for this report, but also for an overall commitment to understanding and following library policies and procedures, ensuring the high integrity of the information presented. Thanks also to the Board of Trustees for leadership and support in the financial operations and policies of the Barrington Public Library District.

Sincerely,

Jason Pinshower

INDEPENDENT AUDITOR'S REPORT

October 28, 2025

Members of the Board of Trustees Barrington Area Public Library District Barrington, Illinois

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Barrington Area Public Library District (the Library), Illinois as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Library's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Barrington Area Public Library District, Illinois, as of June 30, 2025, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Library, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Library's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Barrington Area Public Library District, Illinois October 28, 2025

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Library's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Library's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Barrington Area Public Library District, Illinois October 28, 2025

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Barrington Area Public Library District, Illinois' basic financial statements. The other supplementary is presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Lauterbach & Amen, LLP
LAUTERBACH & AMEN, LLP

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis June 30, 2025

Our discussion and analysis of the Barrington Area Public Library District's financial performance provides an overview of the Library's financial activities for the fiscal year ended June 30, 2025. Please read it in conjunction with the Library's financial statements, which can be found in the basic financial statements section of this report.

FINANCIAL HIGHLIGHTS

- During FY2025, the Library's net position decreased \$910,535, or 3.9 percent, from a beginning balance of \$23,475,759 to ending balance of \$22,565,224 at June 30, 2025.
- During FY2025, government-wide revenues totaled \$9,751,401, while government-wide expenses totaled \$10,661,936, resulting in a decrease to net position of \$910,535.
- During FY2025, the Library's fund balances for the governmental funds increased \$918,665 or 11.5 percent, from a beginning balance of \$8,022,034 to ending balance totaling \$8,940,699 at June 30, 2025.

USING THIS ANNUAL FINANCIAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the Library as a whole and present a longer-term view of the Library's finances.

Fund financial statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Library's operation in more detail than the government-wide statements by providing information about the Library's most significant funds.

Government-Wide Financial Statements

The government-wide financial statements provide readers with a broad overview of the Library's finances, in a matter similar to a private-sector business.

The Statement of Net Position reports information on all of the Library's assets/deferred outflows and liabilities/deferred outflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Library is improving or deteriorating. Consideration of other nonfinancial factors, such as changes in the Library's property tax base, is needed to assess the overall health of the Library.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

Both of the government-wide financial statements report functions of the Library that are principally supported by taxes and charges for services revenues (governmental activities). The governmental activities of the Library include public library.

Management's Discussion and Analysis June 30, 2025

USING THIS ANNUAL FINANCIAL REPORT - Continued

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Library, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Library only maintains governmental funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the Library's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The Library maintains seven individual governmental funds: General, Special Reserve, Illinois Municipal Retirement, FICA, Working Cash, Building and Maintenance, and Insurance. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund and Special Reserve Fund, both of which are considered major funds. Data from the other five governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining schedules elsewhere in this report.

The Library adopts an annual appropriated budget for all of the governmental funds except for the Working Cash Fund. A budgetary comparison schedule for these funds has been provided to demonstrate compliance with this budget.

Notes to the Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Library's budgetary information for the Library's funds and the Library's Illinois Municipal Retirement Fund employee pension liability.

Management's Discussion and Analysis June 30, 2025

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. The following tables show that in the case of the Library, assets/deferred outflows exceeded liabilities/deferred inflows by \$22,565,224.

	Net Position		
	6/30/2025 6/30/202		
			_
Current Assets	\$	18,532,565	17,608,950
Capital Assets		15,206,999	15,697,816
Total Assets		33,739,564	33,306,766
Deferred Outflows		661,454	1,480,404
Total Assets/Deferred Outflows		34,401,018	34,787,170
			_
Long-Term Debt		1,785,674	1,673,005
Other Liabilities		315,302	616,258
Total Liabilities		2,100,976	2,289,263
Deferred Inflows		9,734,818	9,022,148
Total Liabilities/Deferred Inflows		11,835,794	11,311,411
			_
Net Position			
Investment in Capital Assets		15,206,999	15,697,816
Restricted		782,377	769,034
Unrestricted		6,575,848	7,008,909
Total Net Position		22,565,224	23,475,759

A portion of the Library's net position, \$15,206,999 or 67.4 percent, reflects its investment in capital assets (for example, land, construction in progress, land improvements, building, furniture, fixtures, and equipment, and books and library materials); less any related debt used to acquire those assets that are still outstanding. Currently, the Library does not have any debt outstanding. The Library uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Library's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion, \$782,377 or 3.5 percent, of the Library's net position represents resources that are subject to external restrictions on how they may be used. The remaining \$6,575,848, or 29.1 percent represents unrestricted net position and may be used to meet the government's ongoing obligations to citizens and creditors.

Management's Discussion and Analysis June 30, 2025

GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued

Revenues					
Program Revenues					
Charges for Services	\$	53,221	31,639		
Operating Grants/Contributions		67,360	66,906		
General Revenues					
Property Taxes		8,812,645	8,494,640		
Replacement Taxes		85,411	103,246		
Investment Income		662,835	677,219		
Miscellaneous		69,929	13,018		
Total Revenues		9,751,401	9,386,668		
Expenses					
Public Library		10,661,936	7,346,471		
Change in Net Position		(910,535)	2,040,197		
Net Position-Beginning		23,475,759	21,435,562		
Net Position-Ending		22,565,224	23,475,759		

Net position of the Library's governmental activities decreased from \$23,475,759 to \$22,565,224.

In FY2025, revenues of \$9,751,401 fell short of expenses of \$10,661,936, resulting in a decrease to net position in the current year of \$910,535 or 3.9 percent

Total revenues increased from \$9,386,668 in FY2024 to \$9,751,401 in FY2025. Property taxes increased \$318,005 over FY2024 (\$8,812,645 in 2025 compared to \$8,494,640 in 2024). Investment income decreased slightly (\$662,835 in FY2025 compared to \$677,219 in FY2024) due to falling interest rates on the Library's MaxSafe money market fund. Miscellaneous revenues increased due to insurance reimbursements.

Expenses increased from the prior year by \$3,315,465 (\$10,661,936 in 2025 compared to \$7,346,471 in 2024). Expenses are prepared using the accrual basis of accounting, which includes both operating expenditures and long-term costs such as depreciation, pension liabilities (IMRF), and accrued compensated absences. The difference between expenses and expenditures (about \$1.8 million) is due to these conversion adjustments during the preparation of the government-wide statements. A significant part of the year-over-year change in government-wide expenses comes from IMRF pension adjustment. In the prior year, the Library reported a revenue of \$22,709 under IMRF, whereas this year it reported an expense of \$1,594,596. This swing in pension expense is a major driver of the increase in overall government-wide expenses.

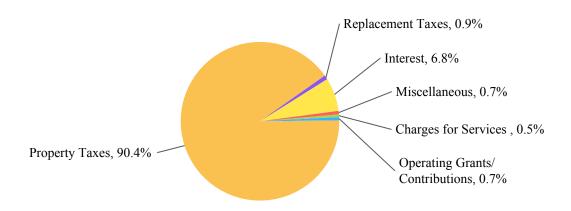

Management's Discussion and Analysis June 30, 2025

GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued

Governmental Activities

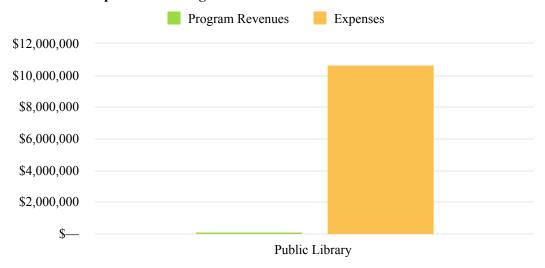

The following table graphically presents the major revenue sources of the Library in 2025. It depicts very clearly the reliance on property taxes to fund governmental activities. It also clearly identifies the percentage the Library receives from charges relating to services.

Revenues by Source - Governmental Activities

The 'Expenses and Program Revenues' Table summarizes the revenue and expenses of the governmental activities and identifies those governmental functions where program expenses greatly exceed revenues.

Expenses and Program Revenues - Governmental Activities

Management's Discussion and Analysis June 30, 2025

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the Library uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the Library's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the governmental funds reported combined ending fund balances of \$8,940,699, which is an increase of 11.5 percent from last year's beginning fund balance of \$8,022,034.

The General Fund reported an increase of \$7,052, due to interest revenue exceeding budgeted amounts, and expenditures coming in under budget in all areas.

The Special Reserve Fund reported an increase of \$803,270, due to a transfer of \$1,000,000 in unexpended funds from the General Fund to pay for future capital projects.

GENERAL FUND BUDGETARY HIGHLIGHTS

During the year, there were no supplemental amendments made to the budget for the General Fund.

The General Fund actual revenues came in higher than budgeted revenues. Actual revenues for the current year were \$8,322,358, compared to budgeted revenues of \$8,242,043, primarily due to interest revenues being higher than expected.

The General Fund actual expenditures were lower than budgeted expenditures. Actual expenditures totaled \$7,315,306, while budgeted expenditures totaled \$7,667,845. This was due to all expenditure functions coming in under budget, with personnel expenditures the largest factor coming in more than \$117,132 under budget in the General Fund.

Management's Discussion and Analysis June 30, 2025

CAPITAL ASSETS

The Library's investment in capital assets for its governmental activities as of June 30, 2025 was \$15,206,999 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, land improvements, building, furniture, fixtures, and equipment, and books and library materials.

	Capital Assets - Net of Depreciation			
		6/30/2025	6/30/2024	
Land	\$	916,980	916,980	
Construction in Progress		_	2,083,422	
Land Improvements		1,268,653	1,356,153	
Building		10,526,438	8,612,785	
Equipment		1,487,191	1,720,166	
Books and Library Materials		1,007,737	1,008,310	
Totals		15,206,999	15,697,816	

This year's additions to capital assets included the following:

Construction in Progress	\$ 316,164
Building	28,837
Furniture, Fixtures, and	59,585
Books and Library Materials	 317,800
	 722,386

Additional information on the Library's capital assets can be found in Note 3 of this report.

Management's Discussion and Analysis June 30, 2025

LONG-TERM LIABILITIES

The Library's long-term liabilities as of June 30, 2025 and June 30, 2024 is shown below:

	Long-Term Liabilities Outstanding			
	6/30/2025 6/30/2024			
Compensated Absences Net Pension Liability - IMRF	\$ 238,365 1,594,982	185,187 1,524,855		
Total	1,833,347	1,710,042		

Additional information on Library's long-term liabilities can be found in Note 3 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Presently, management is not aware of any changes in conditions that could have a significant effect on the financial position or results of activities of the District in the near future.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Library's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be directed to the Executive Director, Barrington Area Public Library District, 505 N. Northwest Highway, Barrington, Illinois 60010.

BASIC FINANCIAL STATEMENTS

The basic financial Statements include integrated sets of financial statements as required by the GASB. The sets of statements include:

- Government-Wide Financial Statements
- Fund Financial Statements

Governmental Funds

In addition, the notes to the financial statements are included to provide information that is essential to a user's understanding of the basic financial statements.

governmental funds, While the repayment of the principal on long-term		
debt consumes the current financial resources of the governmental funds.		
Change in Compensated Absences Payable		(53,178)
Change in Net Pension Liability - IMRF		(70,127)
Changes in Net Position of Governmental Activities		(910,535)

Notes to the Financial Statements June 30, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Barrington Area Public Library District's (the Library) government-wide financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant of the Library's accounting policies established in GAAP and used by the Library are described below.

REPORTING ENTITY

The Library is a municipal corporation governed by an elected seven-member Board of Trustees. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units are, in substance, part of the primary government's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the primary government. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is both legally and substantively separate from the government. Management has determined that there are no fiduciary component units that are required to be included in the financial statements of the Library as pension trust funds and there are no discretely component units to include in the reporting entity.

BASIS OF PRESENTATION

Government-Wide Statements

The Library's basic financial statements include both government-wide (reporting the Library as a whole) and fund financial statements (reporting the Library's major funds).

In the government-wide Statement of Net Position, the governmental activities column is (a) presented on a consolidated basis by column, and (b) reported on a full accrual, economic resource basis, which recognizes all long-term assets/deferred outflows and receivables as well as long-term debt/deferred inflows and obligations. The Library's net position is reported in three parts: net investment in capital assets; restricted; and unrestricted. The Library first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the Library's functions (culture and recreation, etc.). The functions are supported by general government revenues (property and personal property replacement taxes, certain intergovernmental revenues, investment income, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, which include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

The net costs (by function) are normally covered by general revenue (property and personal property replacement taxes, charges for services, investment income, etc.).

The Library does not allocate indirect or administrative service costs.

This government-wide focus is more on the sustainability of the Library as an entity and the change in the Library's net position resulting from the current year's activities.

Notes to the Financial Statements June 30, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

BASIS OF PRESENTATION - Continued

Fund Financial Statements

The financial transactions of the Library are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets/deferred outflows, liabilities/deferred inflows, fund equity, revenues and expenditures/expenses. An emphasis is placed on major funds within the governmental category. A fund is considered major if it is a primary operating fund of the Library or meets the following criteria:

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of that individual governmental fund are at least 10 percent of the corresponding total for all funds of that category or type.

The various funds are reported by generic classification within the financial statements. The following fund types are used by the Library:

Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Library:

General Fund is the general operating fund of the Library. It accounts for all revenues and expenditures of the Library which are not accounted for in other funds. The General Fund is a major fund.

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The Library maintains five nonmajor special revenue funds.

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities. The Special Reserve Fund, a major fund, is used to account for funds committed for future capital maintenance, replacements, and improvements.

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities, governmental activities are presented using the economic resources measurement focus as defined below. In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate.

Notes to the Financial Statements June 30, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING - Continued

Measurement Focus - Continued

All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets/ deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

The accounting objectives of the "economic resources" measurement focus is the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets/deferred outflows, liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported.

Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability/deferred inflow is incurred or economic asset used. Revenues, expenses, gains, losses, assets/deferred outflows, and liabilities/deferred inflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year end. The Library recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70. A sixty-day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are recognized when due.

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, interest revenue, and charges for services. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND FUND BALANCE/NET POSITION

Cash and Investments

For purpose of the Statement of Net Position, the Library's cash and cash equivalents are considered to be cash on hand, demand deposits, and cash with fiscal agent.

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the Library categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Notes to the Financial Statements June 30, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND FUND BALANCE/ NET POSITION - Continued

Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances for governmental activities include property taxes.

Prepaids

Prepaids are valued at cost, which approximates market. The costs of governmental fund-type prepaids are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaids in both the government-wide and fund financial statements.

Interfund Receivables, Payables and Activity

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers.

Capital Assets

Capital assets purchased or acquired with an original cost of \$5,000 or more (depending on asset class) are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized/amortized. Other costs incurred for repairs and maintenance are expenses as incurred.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the Library as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized/amortized. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement costs.

Depreciation/amortization on all assets is computed and recorded using the straight-line method of depreciation/amortization over the following estimated useful lives:

Land Improvements	15 - 40 Years
Building	10 - 40 Years
Furniture, Fixtures and Equipment	3 - 20 Years
Books and Library Materials	5 - 7 Years

Notes to the Financial Statements June 30, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND FUND BALANCE/ NET POSITION - Continued

Deferred Outflows/Inflows of Resources

Deferred outflow/inflow of resources represents a consumption/acquisition of net assets that applies to a future period and therefore will not be recognized as an outflow of resources (expense)/inflow of resources (revenue) until that future time.

Compensated Absences

The Library's policy allows full time and part time employees to earn varying amounts of sick and vacation pay for each year employed.

Full-time and part-time employees accrue vacation PTO monthly, with accrual rates increasing after five years of service. Full-time accruals range from approximately 9–16 hours per month depending on grade, with maximum balances from 112.5 to 187.5 hours. Part-time accruals vary by weekly hours worked, ranging from 3.75 - 8.33 hours per month, with maximum balances from 45 to 100 hours; any excess hours beyond the maximum are forfeited. Upon separation of employment ay unused and accrued vacation is paid out to the employee. Full-time and part-time employees accrue Sick PTO monthly. Full-time employees earn 7.5 hours per month with a maximum balance of 1,800 hours. Part-time accruals vary by weekly hours worked, ranging from 3 - 5 accrued hours per month, with maximum balances ranging from 720 to 1,200 hours; any excess hours beyond the maximum are forfeited. Upon separation of employment, any unused and accrued sick time is forfeited.

All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Net Position

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Investment in Capital Assets - Consists of capital assets, including restricted capital assets, net of accumulated depreciation.

Restricted - Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

Unrestricted - All other net position balances that do not meet the definition of "restricted" or "net investment in capital assets."

Notes to the Financial Statements June 30, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND FUND BALANCE/ NET POSITION - Continued

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumption that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

BUDGETARY INFORMATION

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted for all funds except for the Working Cash Fund. All annual appropriations lapse at fiscal year end. The Library had no budget amendment for the fiscal year ending June 30, 2025.

NOTE 3 - DETAIL NOTES ON ALL FUNDS

DEPOSITS AND INVESTMENTS

The Library maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "cash and investments." In addition, investments are separately held by several of the Library's funds.

Permitted Deposits and Investments - Statutes authorize the Library to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services.

Deposits. At year-end, the carrying amount of the Library's deposits totaled \$12,703,866 and the bank balances totaled \$12,734,567.

Investments. The Library has the following investment fair values and maturities:

	Investment Maturities (in Years)				ars)
	Fair	Less Than			More Than
Investment Type	Value	1	1-5	6-10	10
U.S. Treasury Securities	\$ 362,696	152,102	210,594	_	
U.S. Agency Securities	373,366		221,539	151,827	
Municipal Bonds	305,509	108,268	174,959	22,282	
					_
	 1,041,571	260,370	607,092	174,109	

Notes to the Financial Statements June 30, 2025

NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

DEPOSITS AND INVESTMENTS - Continued

Investments - Continued. The Library has the following recurring fair value measurements as of June 30, 2025:

- U.S. Treasury Securities of \$362,696 are valued using a matrix pricing model (Level 1 inputs)
- U.S. Agency Securities of \$373,366 are valued using a matrix pricing model (Level 2 inputs)
- Municipal bonds of \$305,509 are valued using a matrix pricing model (Level 2 inputs)

Debt Securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Library's investment policy addresses interest rate risk by requiring that investments be diversified and reviewed for concentration in maturity.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Library limits its exposure to credit risk by investing primarily in obligations guaranteed by the United State Government or its agencies. However, the Library's investment policy does not specifically limit the Library to these types of investments. At year-end, the Library's investments in the the U.S. Agency securities were AA+ and the Municipal bonds were rated AA+ - AAA by Standard & Poor's.

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of the Library's investment in a single issuer. The Library investment policy addresses concentration of credit risk by requiring investments to be diversified to reduce the risk of loss resulting from over concentration of assets in a specific issue or specific issues of securities. At year-end, the Library does not have any investments over 5 percent of cash and investments (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

Custodial Credit Risk. In the case of deposits, this is the risk that in the event of a bank failure, the Library's deposits may not be returned to it. The Library's investment policy protects it from custodial credit risk by requiring funds on deposit in excess of FDIC limits to be secured by collateral. At year-end, the entire amount of the bank balance of deposits was covered by collateral, federal depository or equivalent insurance.

For an investment, this is the risk that, in the event of the failure of the counterparty, the Library will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Library investment policy requires that the investments are to be held by a third-party acting as the Library's agent separate from where the investment was purchased.

INTERFUND TRANSFERS

Interfund transfers for the year consisted of the following:

Transfers In	Transfers Out	Amount
		_
Special Reserve	General	\$ 1,000,000

Transfers are used to move unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Notes to the Financial Statements June 30, 2025

NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

PROPERTY TAXES

Property taxes for 2024 attach as an enforceable lien on January 1, on property values assessed as of the same date. Taxes are levied by November of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and are payable in two installments, on or about spring and fall. The County collects such taxes and remits them in two fairly equal payments with a third lesser payment of any disputed taxes.

CAPITAL ASSETS

Governmental Activities

Governmental capital asset activity for the year was as follows:

	Beginning			Ending
	Balances	Increases	Decreases	Balances
Nordanna ishla Carital Assata				
Nondepreciable Capital Assets				
Land	\$ 916,980			916,980
Construction in Progress	 2,083,422	316,164	2,399,586	
	3,000,402	316,164	2,399,586	916,980

LONG-TERM DEBT

Long-Term Liability Activity

Changes in long-term liabilities during the fiscal year were as follows:

					Amounts
	Beginning			Ending	Due within
Type of Debt	Balances	Additions	Deductions	Balances	One Year
Governmental Activities					
Compensated Absences	\$ 185,187	53,178		238,365	47,673
Net Pension Liability - IMRF	1,524,855	70,127		1,594,982	
	 1,710,042	123,305		1,833,347	47,673

The net pension liability are generally liquidated by the General Fund.

FUND BALANCE CLASSIFICATIONS

In the governmental fund financial statements, the Library considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The Library first utilizes committed, then assigned and then unassigned fund balance when an expenditure is incurred for purposes for which all three unrestricted fund balances are available.

Nonspendable Fund Balance. Consists of resources that cannot be spent because they are either: a) not in a spendable form; or b) legally or contractually required to be maintained intact.

Restricted Fund Balance. Consists of resources that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance. Consists of resources constrained (issuance of an ordinance) to specific purposes by the government itself, using its highest level of decision-making authority, the Board of Trustees; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.

Assigned Fund Balance. Consists of amounts that are constrained by the Board of Trustees' intent to be used for specific purposes but are neither restricted nor committed. Intent is expressed by a) the Board of Trustees itself or b) a body or official to which the Board of Trustees has delegated the authority to assign amounts to be used for specific purposes. The Library's highest level of decision-making authority is the Board of Trustees, who is authorized to assign amounts to a specific purpose.

Notes to the Financial Statements June 30, 2025

NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

FUND BALANCE CLASSIFICATIONS - Continued

Unassigned Fund Balance. Consists of residual net resources of a fund that has not been restricted, committed, or assigned within the General Fund and deficit fund balances of other governmental funds.

Minimum Fund Balance Policy. The Library has established a fund balance policy for the General Fund. Total unrestricted fund balances in the General Fund should represent no less than 25% of operating expenses.

The following is a schedule of fund balance classifications for the governmental funds as of the date of this report:

	- General	Capital Projects Special Reserve	Nonmajor	Totals
Fund Balances				
Nonspendable				
Prepaids	\$ 2,584	_	38,821	41,405
Restricted Illinois Municipal Retirement FICA Working Cash Insurance	 	_ _ _ 	136,437 63,749 541,237 40,954 782,377	136,437 63,749 541,237 40,954 782,377
Committed Capital Projects	_	4,940,712	_	4,940,712
Unassigned	3,176,205	_	_	3,176,205
Total Fund Balances	3,178,789	4,940,712	821,198	8,940,699

NET POSITION CLASSIFICATIONS

Net Investment in capital assets was comprised of the following as of June 30, 2025:

Governmental Activities
Capital Assets - Net of Accumulated Depreciation
Less Capital Related Debt
None

Net Investment in Capital Assets

15,206,999

NOTE 4 - OTHER INFORMATION

RISK MANAGEMENT

The Library is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters; and injuries to the Library's employees. As such, the Library participates in the Libraries of Illinois Risk Agency Cooperative (LIRA) for all risks of loss with the exception of unemployment insurance. Settled claims resulting from these risks have historically not exceeded insurance coverage in the past three years and there have been no significant reductions in coverage.

The Library also participates in the Library Insurance Management and Risk Control Combination, LIMRCC, which is a public entity risk pool (the pool), for unemployment insurance coverage. The Library is responsible for quarterly payments and the pool is responsible for administering the program. If funds in the program are insufficient in the judgment of the pool, then the pool may assess the member's additional equal payments.

CONTINGENT LIABILITIES

Deferred Compensation Plan

The Library offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all eligible full-time Library employees, permits them to defer a portion of their salary until future years. Participation in the plan is optional. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. All amounts of compensation deferred under the plan are held in trust on behalf of the employees. Accordingly, the assets are not reported in these financial statements.

Litigation

From time to time, the Library is party to various pending claims and legal proceedings with respect to employment, civil rights, property taxes and other matters. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the Library attorney that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the Library's financial position or results of operations.

Notes to the Financial Statements June 30, 2025

NOTE 4 - OTHER INFORMATION - Continued

CONTINGENT LIABILITIES - Continued

Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Library expects such amounts, if any, to be immaterial.

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN

Illinois Municipal Retirement Fund (IMRF)

The Library contributes to the Illinois Municipal Retirement Fund (IMRF), a defined benefit agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local governments and school districts in Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole, but not by individual employer. That report may be obtained online at www.imrf.org. The benefits, benefit levels, employee contributions, and employer contributions are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly.

Plan Descriptions

Plan Administration. All hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Benefits Provided. IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Notes to the Financial Statements June 30, 2025

NOTE 4 - OTHER INFORMATION - Continued

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

Illinois Municipal Retirement Fund (IMRF) - Continued

Plan Descriptions - Continued

Benefits Provided - Continued. Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Plan Membership. As of December 31, 2024, the measurement date, the following employees were covered by the benefit terms:

107

Inactive Plan Members Currently Receiving Benefits	107
Inactive Plan Members Entitled to but not yet Receiving Benefits	92
Active Plan Members	73
Total	272

Contributions. As set by statute, the Library's Regular Plan Members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. For the year-ended June 30, 2025, the Library's contribution was 8.25% of covered payroll.

Net Pension Liability. The Library's net pension liability was measured as of December 31, 2024. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Notes to the Financial Statements June 30, 2025

NOTE 4 - OTHER INFORMATION - Continued

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

Illinois Municipal Retirement Fund (IMRF) - Continued

Plan Descriptions - Continued

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation performed, as of December 31, 2024, using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Fair Value
Actuarial Assumptions Interest Rate	7.25%
Salary Increases	2.85% to 13.75%
Cost of Living Adjustments	2.75%
Inflation	2.25%

For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 108.0%) and Female (adjusted 106.4%) tables, and future mortality improvements projected using scale MP-2021. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2021. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2021.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Notes to the Financial Statements June 30, 2025

NOTE 4 - OTHER INFORMATION - Continued

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

Illinois Municipal Retirement Fund (IMRF) - Continued

Plan Descriptions - Continued

Actuarial Assumptions - Continued.

		Long-Term
		Expected Real
Asset Class	Target	Rate of Return
Fixed Income	24.50%	5.20%
Domestic Equities	33.50%	4.35%
International Equities	18.00%	5.40%
Real Estate	10.50%	6.40%
Blended	12.50%	4.85% - 6.25%
Cash and Cash Equivalents	1.00%	3.60%

Discount Rate

The discount rate used to measure the total pension liability was 7.25%, the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that Library contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all project future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the Library calculated using the discount rate as well as what the Library's net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

		Current			
	19	1% Decrease Discount Rate 1%			
		(6.25%)	(7.25%)	(8.25%)	
Net Pension Liability	\$	4,029,415	1,594,982	311,513

OTHER POST-EMPLOYMENT BENEFITS

The Library has evaluated its potential other post-employment benefits liability. Former employees who choose to retain their rights to health insurance through the Library are required to pay 100% of the current premium. However, there is minimal participation. As the Library provides no explicit benefit, and there is minimal participation, there is no material implicit subsidy to calculate in accordance with GASB Statement No. 75, *Accounting and Financial Reporting for Post-Employment Benefits Other Than Pensions*. Therefore, the Library has not recorded a liability as of June 30, 2025.

REQUIRED SUPPLEMENTARY INFORMATION

Required supplementary information includes financial information and disclosures that are required by the GASB but are not considered a part of the basic financial statements. Such information includes:

OTHER SUPPLEMENTARY INFORMATION

Other supplementary information includes financial statements and schedules not required by the GASB, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

Such statements and schedules include:

- Budgetary Comparison Schedule Major Governmental Fund
- Combining Statements Nonmajor Governmental Funds
- Budgetary Comparison Schedules Nonmajor Governmental Funds

INDIVIDUAL FUND DESCRIPTIONS

GENERAL FUND

The General Fund is used to account for all financial resources except those required to be accounted for in another fund.

SPECIAL REVENUE FUNDS

The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than fiduciary funds or capital projects funds) that are legally restricted to expenditure for specified purposes.

Illinois Municipal Retirement Fund

The Illinois Municipal Retirement Fund is used to account for the revenue of taxes levied and related expenditures for retirement contributions.

FICA Fund

The FICA Fund is used to account for the revenue of taxes levied and related expenditures for employer payments for Social Security withholding.

Working Cash Fund

The Working Cash Fund is used to account for payments for general government expenditures if tax revenue is temporarily unavailable. Upon receipt of tax revenues, the General Fund must repay this permanent fund.

Building and Equipment Maintenance Fund

The Building and Equipment Maintenance Fund is used to account for the expenses related to the Library's building and equipment maintenance of the building and equipment. Financing is provided by a specific annual tax levy and transfers.

Liability Insurance Fund

The Liability Insurance Fund is used to account for the revenue and expenditures of an annual property tax levy for the payment of premiums of public liability insurance carried by the Library.

CAPITAL PROJECTS FUND

The Capital Projects Funds are used to account for all financial resources used for the acquisition or construction of major capital facilities, equipment and capital asset replacement.

Special Reserve Fund

The Special Reserve Fund is used to account for funds committed for future capital maintenance, replacements, and improvements.

STATISTICAL SECTION (Unaudited)

This part of the annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Library's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the Library's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the Library's most significant local revenue sources.

Debt Capacity

These schedules present information to help the reader assess the affordability of the Library's current levels of outstanding debt and the government's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the Library's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the Library's financial report relates to the services the Library provides and the activities it performs.

Data Source: Lake County Clerk PTAX-254 L05ELA

Assessed value is set by the County Assessor on an annual basis. The assessment level is then adjusted by the State with a County Multiplier based on the factor needed to bring the average prior years' level up to 33-1/3% of market value. All property is reassessed on a repeating triennial cycle.

Data Source: https://districtportal.cookcountyclerkil.gov/agency/dashboard

Assessed value is set by the County Assessor on an annual basis. The assessment level is then adjusted by the State with a County Multiplier based on the factor needed to bring the average prior years' level up to 33-1/3% of market value. All property is reassessed on a repeating triennial cycle.
